Glass end walls as

60x40 cm boxes fit

EXTRA Multideck is a full glass door quality cooler with double glazed hinged glass doors for added energy efficiency savings on running costs.

standard

perfectly

For greater stock capacity it has 460mm deep shelves to help maximise sales during busy periods and reduce restocking. It has excellent internal illumination with vertical LED lighting in each door and horizontally across the top on the 2500 model. Shelves can be flat or tilted to 10 or 20 degrees with ticket strips and shelf risers as standard.

It is suitable for display of packed fresh meat, dairy or drinks and is ideal for supermarkets, convenience stores, delis and sandwich shops where plug-in refrigeration is required.

Installation is simple and quick. No special requirements as refrigerant charge is below 150g.

The model allows for multiplexing and increases your possibilities to make the most of the space, you have available. The unit can be ordered without end walls and with a multiplexing kit if required.
