### Gastro cooler for storage of fish

The RKS600 is designed specifically for optimum storage of fresh fish and other seafood. The cooler is made from high quality 304 catering grade stainless steel. Interior refrigeration components are specially coated to resist corrosion that can be caused by ammonia given off by fish during storage. The unit comes with 7 fish trays (600 x 400 mm). For correct storage of fresh fish you must fill the trays with crushed ice to maintain freshness and moisture levels.
