- Skinplate exterior/interior
- Removable cooling unit for easy service
- Ventilated cooling
- Electronic thermostat
- Automatic defrost
- Adjustable legs
- Replacable magnetic door gasket
- Mobile frame available as accessory

High-end storage cooler for kegs

The KSC-720E keg storage cooler from Serrco is a reliable solution for busy bars, designed with extra-sturdy shelves for storing 7 x 20L kegs or up to 7 crates (depending on the market/brand of the beverages). It is often combined with the installation of the SFK range of keg coolers to ensure that busy bars have pre-cooled kegs available for service. If you are using the setup for events, a mobile frame with robust wheels is available as an accessory.

The keg storage cooler has a sophisticated as well as practical skinplate exterior/interior. The coated skinplate exterior resists scratches and fingerprints for a flawless look. For peace of mind, the KSC features a removable cooling machine unit. In the rare event of a malfunction, this means that service can be done swiftly, and if you have a backup cooling unit in store, you will never have more than a few minutes down time (and you can call for service Monday morning rather than Saturday at 1am). This is invaluable in busy bar environments.

Measures and Content

Temperature Range	°C	+2 to +10
Climate Class		4
Net Volume	l	424
Gross Volume	l	460
Gross / Net Volume	l	460 / 424
